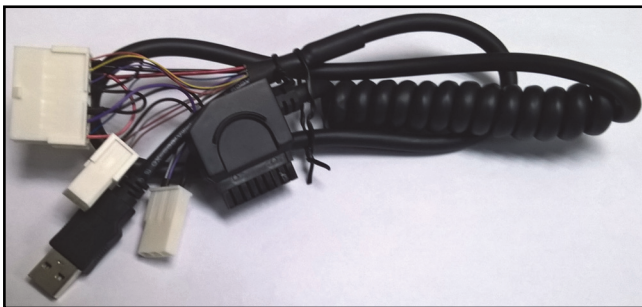

Figure 1 GEN5™/GEN2U™ Coil Harness w/ Secondary RS-232 Connector

Part No. 150-00421-100

Description: GEN5/GEN2U Coil Harness (RS-232 14 Pin) with Secondary RS-232 Connector

Usage: JCM's new GEN5/GEN2U Coil Harness (RS-232 14 Pin) with Secondary RS-232 Connector (P/N 150-00421-100 - refer to **Figure 1**) supports printing of tickets or coupons from alternate sources - such as JCM's PromoNet® Promotional Couponing or FUZION™ Technology Systems - through the Secondary RS-232 Port. TITO Coupons are printed through the Primary Communications Port (RS-232, USB or Netplex).

Note: The IGT Netplex Harness with Secondary RS-232 Port (P/N 150-00422-100) is also available.

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions. Contact the Game Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM recommends using the latest version for maximum acceptance, security, and performance.

JCM Service Offerings

JCM offers the following services to help keep your JCM Products performing within factory specifications:

- **Warranty and Non-Warranty Service and Repair**
- **Custom Training Classes**
- **Unit Exchange Programs**
- **Preventive Maintenance Programs**
- **ICB Data Analysis**
- **Validator Performance Analysis**

JCMedia™ Is The Source For All Your Video Needs!

JCMedia™ solutions incorporate the latest digital display technology (single screen to large scale video wall solutions), digital content creation services and networked solutions for all your media needs. JCMedia now offers the only upgradeable pixel pitch LED Displays using JCM's PIXELPRO™ Display Technology. PIXELPRO products combine unsurpassed color uniformity and the best pixel-to-pixel resolution available in the Gaming industry in an easy-to-install package. PIXELPRO MAX™ provides a high-resolution interlocking panel solution for large scale LED Video screens. PIXELPRO FLEX™ offers articulating panels for curved surface implementations, and PIXELPRO CUBE™ supports 3-D Video Displays. For more information, please visit the JCM Global website at jcmmedia.jcmglobal.com!

Technical Tip

Question: Which parts are needed when replacing a UBA® CPU Board equipped with an IL-S (brown colored) Transport Motor Connector with a new UBA CPU Board and DF3 (black colored) Transport Motor Connector?

Answer: The Transport Motor connector was changed on the UBA CPU in 2015 to a DF3 Type Connector (**Figure 2**). When replacing the UBA PCB's IL-S (brown colored) connector with the current DF3 (black colored) connector, be sure to also change the Transport Motor (**Figure 2 a**) and Motor Spacer (**Figure 2 b**).

UBA CPU Part Numbers:

- UBA-10 (P/N 241164)
- UBA-14 (P/N 241162)
- UBA-24 (P/N 241163)
- Transport Motor w/ DF3 Connector (P/N 241141)
- Motor Spacer (P/N 142-090429R)

Note: When upgrading from a UBA-11 CPU to a UBA-10 CPU, the Transport Motor and Motor Spacer will also need to be changed.

For additional information on JCM Products, visit the JCM Global website at www.jcmglobal.com or contact your local JCM Sales Representative at (800) 683-7248.
