## Parts are Parts

Figure 1 UBA Cash Box Pusher Assembly (P/N 900-100422R)

**Part No.** 900-100422R

**Description:** UBA® Cash Box Pusher Assembly

**Usage:** The UBA Cash Box Pusher Assembly (Figure 1) securely pushes accepted Banknotes into the UBA Cash Box, then moves to the home position.

**Note:** To perform preventive maintenance and cleaning of the Pusher Assembly, follow this procedure:

- 1) Open the Cash Box lid (not shown).
- 2) Remove two screws from the lower Cash Box housing (Figure 1 a).
- 3) Slide (pull) the Pusher Assembly out of the Cash Box housing (Figure 1 b).
- 4) Use non-flammable Compressed Air to remove dirt and debris from the Assembly.
- 5) Clean the Pusher Assembly and belts (not shown) using a clean Microfiber cloth dampened with mild soap and water.

### Technical Tips

**Question:** What are the benefits of the ICB® Intelligent Cash Box System?

**Answer:** The ICB Intelligent Cash Box System provides process improvement of the Drop function, Count Room procedures, Slot Performance management and Revenue Reconciliation, as described below:

The Drop function is improved with the ICB WebReports Drop Management Calendar and Predictive Drop Reporting. Less time is spent on the Casino floor by eliminating extra steps. Once the “Hot” Cash Box is removed from the EGM and the “Cold” Cash Box is inserted in its place, the ICB-enabled Banknote Validator assigns asset tracking information to the installed “Cold” Cash Box automatically.

The JCM Multi-Download Module Application simplifies the Count Room process by retrieving data, revenue and Validator performance data from the Cash Box. Data retrieved in the Count Room is immediately available to the WebReports Application, providing designated Reports with the information needed to reconcile the Cash Revenue and provide performance data for each Validator on the venue floor. Reports can be individually customized to provide details required by the User.
