Figure 1 iVIZION® Frame Ground Plate

Part No. 151784

Description: Frame Ground Plate for iVIZION® Unit
Usage: The Frame Ground Plate (P/N 151784) provides a solid ground connection from the iVIZION Banknote Acceptor to the iVIZION Frame. The Frame Ground Plate is located on the Upper Cable Mounting Screw, and is secured with a locknut (refer to **Figure 1**). The iVIZION Frame should be grounded to an earth ground.

Note: The Frame Ground Plate **must** be installed so that it makes firm contact with the iVIZION Transport Unit, creating an available path to dissipate static electricity and promoting optimum performance of the iVIZION Banknote Acceptor.

The Latest JCM Software Listing (shown above) identifies specific software versions that have been released to OEMs. It is the responsibility of the OEM to obtain all required approvals from Gaming Regulators and Jurisdictional Authorities necessary for use of approved software versions. Contact the Game Manufacturer (OEM) for information on specific software releases approved for use within your gaming jurisdiction.

JCM recommends using the latest version for maximum acceptance, security, and performance.

JCM Service Offerings

JCM offers the following services to help keep your JCM Products performing within factory specifications:

- **Warranty and Non-Warranty Service and Repair**
- **Preventive Maintenance Programs**
- **Custom Training Classes**
- **ICB Data Analysis**
- **Unit Exchange Programs**
- **Validator Performance Analysis**

JCMedia™ Is The Source For All Your Video Needs!

JCMedia™ solutions incorporate the latest digital display technology (single screen to large scale video wall solutions), digital content creation services and networked solutions for all your media needs. JCMedia now offers the only upgradeable pixel pitch LED Displays using JCM's PIXELPRO™ Display Technology. PIXELPRO products combine unsurpassed color uniformity and the best pixel-to-pixel resolution available in the Gaming industry in an easy-to-install package. PIXELPRO MAX™ provides a high-resolution interlocking panel solution for large scale LED Video screens. PIXELPRO FLEX™ offers flexible panels for curved surface implementations, and PIXELPRO CUBE™ supports 3-D Video Displays. For more information, please visit the JCM Global website at jcmmedia.jcmglobal.com!

FREE REGIONAL TRAINING

Technicians need training, but is time or class availability a problem? JCM Online Training offers classes to meet your schedule and your needs. JCM Online Training Programs feature the same content as JCM On-site Training with the added convenience of flexible scheduling. Visit training.jcmglobal.com for more information or to register for classes.

Technical Bulletin 201802 February 2018

Technical Tip

Question: Which JCM applications support the JCM GEN5™ Thermal Printer?

Answer: The following JCM applications support the JCM GEN5 Thermal Printer (refer to **Figure 2**), and can be downloaded from the JCM Global website at www.jcmglobal.com:

Application Name	Description/Features
JCM Printer Driver	<ul style="list-style-type: none"> - Used to test GEN5 Printer functionality and to view Printer status. - Firmware version information can be retrieved and printed. - A sample Test Ticket can also be printed. - Can be used with both Netplex and RS-232 communications protocols.
JCM DFU Downloader Utility	<ul style="list-style-type: none"> - Available for updating Firmware in the GEN5 Printer using a PC. - Connect from the side USB Port on the GEN5 Printer to an available USB Port on the PC.

Figure 2: GEN5 Thermal Printer

Note: GEN5 Printer Firmware updating is also supported by the JCM BlueWave™DX Tool. For details, refer to the BlueWave™DX DT-300 Operator Guide (P/N 960-100942R), available at www.jcmglobal.com.

GEN5 Printer Training is available online at training.jcmglobal.com.
