Pusher Unit Cover

Part No. 052558

Description: P U Cover

Usage: The P U or Pusher Unit Cover is part of the cash can pusher mechanism. This piece covers the rollers, belts and O-rings that are used to move the note from the stacker into the cash can.

Note: The combs of the cover are used in conjunction with the rails in the frame assembly to align the cashbox bill path to the transport. These can become cracked or broken during drop procedures. If this happens, the cover should be replaced to prevent contaminants from entering the cash can pusher mechanism.
