JCM Global's FUZION Technology Wins Silver Medal In GGB's 17th Annual Gaming and Technology Awards

FUZION Named a "Best Consumer Service Technology"

LAS VEGAS (September 27, 2017) – JCM Global's breakthrough [FUZION® technology](#) has won the silver medal in GGB's 17th Annual Gaming and Technology Awards in the "Best Consumer Service Technology" category. FUZION was chosen out of what the Awards' organizers describe as a "record number of nominations."

FUZION is a game-changing technology that empowers operators to imagine a world where the slot machine can be utilized in new ways to unlock greater value for operators and for players. FUZION is at the core of the future-ready casino floor and connects JCM's GEN5™ printer and iVIZION® bill validator to a compatible back-end casino management system, giving every machine on the slot floor the potential to deliver a server-driven suite of player-focused, revenue-driving features.

With FUZION, each slot machine could become a multi-line profit center with the current potential to:

- Vend and redeem lottery tickets
- Vend and redeem race & sports betting
- Facilitate Daily Fantasy Sports (DFS) wagering, the casino's own or a 3rd party's
- Conduct cross-enterprise promotional couponing for carded and uncarded players
- Enable currency exchange with exchange rates that could be preset or could be real-time
- Streamline tax forms processes by printing system-generated tax forms and deliver required documentation to the customer while the back-end system stores the signature forms and data that needs to be delivered to the IRS
- Integrates with the ICB 3.0 drop management system, for real-time health monitoring data and predictive drop and maintenance

JCM will demonstrate FUZION and its other industry-leading products in booth #4039 at G2E, and join JCM on [Facebook](#), [LinkedIn](#), and [Twitter](#).
