### **JCM Global Brings 60 Years of Innovation to SAGSE 2015**

LAS VEGAS (November 2, 2015) – [JCM Global](http://www.jcmglobal.com) is bringing 60 years of incredible innovations to [SAGSE 2015](#). The show takes place November 10-12 in Buenos Aires, and JCM will be in booth #200, showcasing its award-winning portfolio of products that help operators across Latin America make even better connections with their customers.

JCM Global Vice President of Sales and Marketing Tom Nieman said, “SAGSE is a premier event for the Latin American gaming industry and has traditionally been a good place to conduct business. For the last 60 years, JCM has been on the cutting-edge, creating industry-leading solutions, and now at SAGSE 2015, we proudly show our solutions that are currently found across the region and around the world, all designed to help retailers do business better, smarter and faster while connecting with their customers.”

JCM will show its line of bill validators, including the [DBV®-500](#). The DBV-500 Series has a note-to-note acceptance rate of less than 2 seconds, is designed to work at temperatures ranging from -15°C to +60°C, and a sleep mode that comes standard. Its thick metal frame houses a cashbox with capacity options of 500, 1,000, and 1,500 notes. It is completed by an all-new centering mechanism and a sensing technological package with 8 wavelengths of high-precision optical sensors. JCM will also show the [DBV®-400](#), with similar capabilities and cashbox capacity options of 300, 500, and 1,000 notes.

Also on the stand will be the innovative and flexible [iPRO™](#) bill validator, the award-winning [iVIZION®](#) bill validator with choices of a standard or a 1,000-note cashbox, the bulk-feed capable [TBV™](#), the award-winning [UBA®](#), and the handheld [BlueWave™](#) firmware upload tool.

The customer connection deepens with the [GEN2 Universal®](#) printer. With incredible flexibility, durability and communications technologies, GEN2 Universal was built for today and tomorrow, thanks to its universal communications platform. GEN2 Universal features a paper capacity that is 50 percent larger than standard capacity; the IntelligentBezel™ System dramatically which reduces paper jams by detecting any blockage at the bezel; and an expanded graphics memory stores hundreds of clip art objects and thousands of graphic templates.

Join JCM on stand #200 at SAGSE 2015 and on [Facebook](#), [LinkedIn](#) and [Twitter](#).

#### **About JCM Global**

JCM Global is the world's leading transaction technologies supplier for the banking, retail, kiosk and gaming industries.
