JCM Global Hosts New In-depth Technical Training for Latin American Operators at Peru Gaming Show

LAS VEGAS (June 3 2014) – Further demonstrating its dedication to the Latin American gaming industry, JCM Global will host a new in-depth training for Latin American operators on the final day of the Peru Gaming Show.

The training takes place June 12 from 3-5 p.m. at the Jockey Exhibition Center in Lima, Peru. JCM hosted a similar training in May prior to SAGSE Panama, and based on that event's success and continuing customer demand, JCM has organized a new training to coincide with the Peru Gaming Show.

JCM's team of engineering specialists will conduct the training, giving operators an inside view of JCM's award-winning UBA® and iVIZION® bill validators and award-winning PayCheck 4™ thermal printer, allowing operators to better understand the products' technical functionality.

"This free training is one more example of JCM's dedication to the industry in this region, where for more than 10 years, we have worked closely with Latin American operators to safeguard their operations against counterfeiters and other cash cheats. Our technology helps operators make their operations more secure and more profitable, and this training is an essential part of that process," said JCM Latin America Sales Manager Eduardo Rozen.

Operators can register for the training by emailing erozen@jcmglobal.com.

JCM will exhibit at the Peru Gaming Show in booth #9, where it will show the new iPRO™ bill validator, the award-winning iVIZION® and UBA™ bill validators, and the award-winning PayCheck 4™ thermal printer.
