### **JCM Global Brings Award-Winning Line of Transaction Technologies to Southern Gaming Summit**

LAS VEGAS (April 16, 2014) – [JCM Global](http://www.jcmglobal.com), the gaming industry's leading transaction technologies supplier, has been serving casino operators across the southern United States since 1992, and now the company is bringing its award-winning line of validators, printers and displays to the [Southern Gaming Summit](#).

JCM will be in booth #825 and will show:

- The award-winning iVIZION®, the bill validator that is the foundation of intelligent validation
- The new iPRO™, a bill validator with incredibly high sensing power
- PayCheck 4® thermal printer, the fastest, smartest, longest-lasting printer in its class
- ICB® 3.0 intelligent cash box with on-demand web reporting
- A wide range of digital display solutions, including display panels, media systems hardware, publication software and content development

“We have been very fortunate as a company to have developed long-term relationships with operators of all types and sizes across the southern United States,” said JCM Vice President of Global Sales Mark Henderson. “Our bill validators have stood firm as a first line of defense against counterfeits; our ICB system has sped the reconciliation process and eliminated several points of potential error for greater accuracy; and our printers have given operators the power to communicate with their customers in a personal, rewarding way. Now we are excited to add displays to that equation, to further help casinos communicate their brand message to their customers in an entertaining, compelling way.”
