## Correction:

*Correction made to the Checksum of firmware DBV-200-B4/B5-SS, ID-003.*

## Conditions:

JCM engineering has released new firmware to our OEM partners for the USA NexGen \$50 release occurring on September 28, 2004. This firmware will be released by each OEM to the jurisdictional regulatory agencies for approval on their hardware platforms.

- Added NexGen fifty (\$50) USD recognition capabilities.
- Acceptance Security for the twenty (\$20) USD has been improved. (2004 series)

## Notes:

These firmware versions supercede all previous versions of JCM firmware. JCM recommends that all previous versions of firmware be upgraded to the 2.50-xx series so that our customers can take advantage of the NexGen \$50 and increased Acceptance Security.
