South Africa Yields Tremendous Success for JCM Global Bill Validator Solutions in both Gaming and Vending Marketplaces

DÜSSELDORF, Germany (4 February 2016) – Investing locally in South Africa has yielded strong results for [JCM Global](#), where its bill validator solutions are making big gains in both the gaming and vending industries across the country.

The investment in South Africa began with JCM hiring local representatives and signing new distribution agreements with GPT (Global Payment Technologies PTY Ltd). Now, JCM has re-emerged as a leading manufacturer of reliable and top-performing bank note acceptor technologies.

In the gaming industry, JCM's award-winning [iVIZION®](#) has been selected for use in casino and in limited payout machine (LPM) environments. PeerMont Global, Sun International, and Tsogo Sun are all now using JCM's iVIZION at their properties, as is the country's largest LPM operator, Vukani Gaming (VSLots).

Installations of iVIZION began October 2014 and marked the first time the award-winning bill validator was in use in South Africa.

"We are very pleased with the success our operator partners are having with iVIZION. They are reporting back to us that they are experiencing better acceptance rates with iVIZION than current industry standards," JCM EMEA General Manager [Payam Zadeh](#) said. "Better performance is a common theme with operators who use iVIZION, and with a 99%+ acceptance rate, coupled with the industry's strongest anti-counterfeiting and anti-stringing technology, it is easy to see why."

JCM is also making tremendous strides in the vending industry, where its [Taiko™](#) and [Vega-RC Twin™](#) bill validators are now in wide use. Magex South Africa, a distributor of Pharmaceutical vending machines, will be using the JCM Vega-RC Twin going forward in units produced and sold within South Africa.

Join JCM on stand #N3-220 at ICE Totally Gaming and on [Facebook](#), [LinkedIn](#) and [Twitter](#).
